

You want to transfer your .epf file.

If you want to use your digital signature on a new computer or an additional computer, see this page: <u>Access your signature on a new computer (PC) or on an additional computer (PC).</u>

Choose the situation that applies to you:

- I work on a Windows interface.
- I work on a macOS interface.

I work on a Windows interface.

- 1. Using the computer where your digital signature is configured:
 - a. Go to your computer's search bar.
 - b. Search for **.epf** and select the corresponding **.epf** file.
 - *i.* It is usually located at C:\Users\name\Documents
