I want to pay and renew my annual subscription.

In the future, to avoid this step, check the box that allows Notarius to automatically debit renewals and transaction fees from your credit card

On the **My Account** page in the **My subscriptions** section:

a. Select the product that has a subscription coming to term.
b. Click on **Renew my subscription.**
c. Select your payment method and click **Next.**
   i. *If your organization has an account with Notarius, you can transfer them the invoice by choosing* **Invoice my organization** *and selecting it from the drop-down menu.*
d. Check the invoice and agree to the terms of purchase, then click **Submit**.
e. Enter the CVV (verification) number on the back of your credit card and click **Pay Now.**
f. Verify your transaction receipt.

Your annual subscription is paid and renewed. It will come into effect as soon as your current subscription expires.
